Celebrating the Wins EVERY DAY!

"I began in early December after surgery. My range of motion was limited to minimal movements in all directions. My pain level was intense and very limiting. Today in late March, I am virtually pain free with no limitations to movement. The pain that I had prior to surgery is gone. I am already enjoying a better quality of life than was possible before the surgery and PT. I am extremely happy with my results, and the program and employees I have had during PT."

HAPPY SWEET 16!

MAGNOLIA CELEBRATES 16 YEARS!

Come celebrate 16 years of business with us. We are holding a screening event to celebrate.

How monthly wellness checks are beneficial to you:
• Great for maintenance after completing a plan of care • Helps reduce the frequency of degenerative musculoskeletal conditions • Pre-habilitation is just as important at rehabilitation • Reduces the chances of needing another full plan of care
