I can go for a run pain free!

Success Story - Michelle

'I first came to Magnolia after visiting a spine specialist. I was feeling large amounts of pain coming from a very small spot in between two vertebrae of my spine. Standing, working at my desk, and walking my dog was painful.

After 4 weeks of therapy the pain subsided but the spot was still tender to touch. After an additional four weeks the pain is essentially gone. I can even go for a run pain free!
Adam did an excellent job of truly understanding what was going on and to help me heal and strengthen it.'
