Melon Sorbet Float

Ingredients:

- Assorted melon balls (watermelon, honey dew, cantaloupe, etc)
- 2 scoops fruity sorbet
- Fresh mint leaves
- Seltzer water

Instructions:

- Freeze melon balls for at least 3 hours
- To make the drink, put the sorbet into the bottom of a glass, then top with the frozen melon balls. Drop in as much fresh mint as you'd like (anywhere from a couple leaves to a handful), then top with seltzer water
- Let the sorbet melt to sweeten and flavor. Enjoy!

HURRICANE SEASON IS BACK!

With hurricane season back, and already in full swing, we want to remind patients to monitor their emails for any potential closures due to hurricanes that could affect Louisiana in the coming months. Magnolia Physical Therapy will alert patients as soon as possible for any closures or changed hours of operations that could be a result of a major hurricane. Follow us on Facebook for additional alerts!

As always, please prepare yourselves and your family for any hurricanes that may affect the New Orleans area this hurricane season!
